

Prevent Logging In Too Often

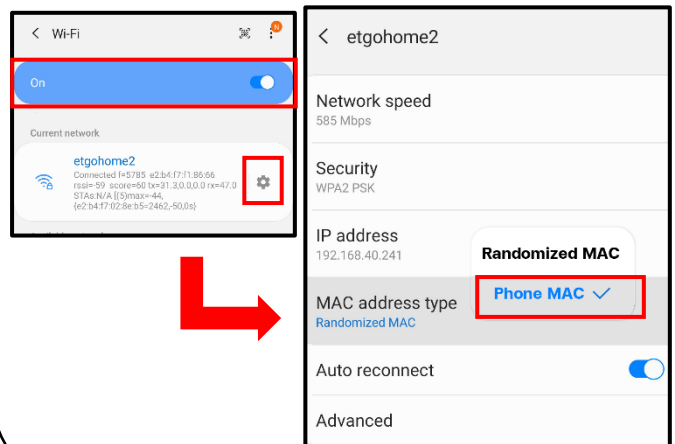

iPhone, iPad, or iPod touch

1. Open the Settings app, then tap Wi-Fi.
2. Tap the information button  next to a network.
3. Tap to turn **Private Address** off. If your device joined the network without using a private address, a privacy warning explains why.

Android

1. Ensure the device is connected to your network.
2. Open the Settings app.
3. Tap Network & Internet/Connections and then WiFi.
4. Tap the gear icon associated with network.
5. Tap **MAC address type**.
6. **Choose Phone MAC.**

Windows

1. Connect to your Network.
2. In your taskbar, right-click on the WiFi icon and then Properties.
3. Under the **Random Hardware Addresses** section, change the setting to **Off**
