

เข้า Controller

1. คลิก Coupons
2. เลือก Layout
3. เลือกแท็บ Error Notification
4. แก้ไขข้อมูลที่ต้องการ
5. Save

The screenshot shows the iNSTAT KIOSK interface. On the left is a sidebar menu with 'Coupons' selected (1) and 'Layout' highlighted (2). The main area shows the 'Error Notification' configuration screen (3). The form includes a 'Notification Logo' field with 'befirst.png' and a 'Browse' button. Below are eight 'Info' fields (Info1-Info8) for editing notification content (4). At the bottom right are 'Print Test', 'Clear', and 'Save' buttons (5).

1. บันทึกเค้าโครงเรียบร้อยแล้ว

The screenshot shows the iNSTAT KIOSK interface with a green success message: "The layout was saved successfully."

The comparison shows the notification layout before and after the update. The 'Before' version shows the original layout, and the 'After' version shows the updated layout with the phone number 'Tel: 0899225797' highlighted in red.
