

เข้า Controller

1. คลิก Maintenance
2. เลือก Database
3. เลือกแท็บ Userman

The screenshot shows the INSTANT KIOSK interface. On the left is a dark sidebar menu with the following items: Dashboard, Coupons, Report, Configure, Maintenance (highlighted with a red box and circled '1'), Database (highlighted with a red box and circled '2'), Diagnostic, and Change Password. The main content area is titled 'Coupons' and has a sub-tab 'Userman' (highlighted with a red box and circled '3'). Below the sub-tab, there is a summary: 'Coupons actually exist in the Userman' with a value of 7, and 'Expired coupons' with a value of 0 (highlighted with a red box and circled '4'). There are two red buttons labeled 'x Remove' (circled '5'). The first button is for 'Remove expired coupons.' The second button is for 'Remove coupons older than : 90 day(s)'. A dropdown menu is set to '90' days.

4. Expired coupons: จำนวนใบที่คูปองหมดอายุ

5. กดปุ่ม Remove : เพื่อลบคูปองหมดอายุ

6. กด Comfirm : ยืนยันคูปองหมดอายุ

The dialog box is titled 'Remove expired coupons'. The text inside reads: 'Deleting expired coupons in the userman has no effect with the coupon shown in the controller.' At the bottom right, there are two buttons: a grey 'x Cancel' button and a red 'Confirm' button (circled '6').
